

Camas Daraich: A Mesolithic site at the Point of Sleat, Skye

by Caroline R Wickham-Jones and Karen Hardy

Department of Archaeology, University of Edinburgh, Old High School,
12 Infirmity Street, Edinburgh EH1 1LT

with contributions by

Ann Clarke, Michael Cressey, Kevin J Edwards
and Anthony Newton

Published by the Society of Antiquaries of Scotland, www.socantscot.org
with Historic Scotland
and the Council for British Archaeology

Editors Colin Wallace and Debra Barrie

Produced by Archetype Information Technology Ltd, www.archetype-it.com

ISBN: 0 903903 82 2

ISSN: 1473-3803

1 Summary	1
2 Introduction <i>by C R Wickham-Jones and K Hardy</i>	4
3 Location and pre-excavation information <i>by C R Wickham-Jones and K Hardy</i>	6
3.1 Location	6
3.2 Pre-excavation information	9
4 Excavation <i>by C R Wickham-Jones and K Hardy</i>	11
4.1 Methods	11
4.2 Results	11
4.2.1 Trench 1	11
4.2.2 Test pits	14
4.2.3 Soil pits	15
4.2.4 Other sites	15
5 Flaked lithics <i>by C R Wickham-Jones</i>	19
5.1 Introduction	19
5.2 Raw materials	19
5.3 Primary technology	24
5.4 Secondary technology	27
5.5 Nature of the flaked lithic assemblage	32
5.6 Distribution of the flaked lithic assemblage	34
5.7 Cultural and chronological connections	36
5.8 Summary	37
6 Microwear analysis of a sample of flaked stone tools <i>by K Hardy</i>	38
6.1 Introduction	38
6.2 Methods	39
6.3 Results	39
6.4 Interpretation of use	39
6.5 Raw material	39
6.6 Selection by size	39
6.7 Presence of microwear on unretouched pieces	41
6.7.1 Microwear on unretouched blades	41
6.7.2 Microwear on unretouched flakes and chunks	42
6.8 Presence of microwear on retouched pieces	42
6.9 Points and tips	42
6.10 Refits and usewear	43
6.11 Artefact distribution and usewear	43

6.12	Traces of movement	43
6.13	Summary	43
7	Coarse stone tools by <i>A Clarke</i>	46
8	Pumice by <i>A Newton</i>	47
8.1	Background	47
8.2	Pumice at Camas Daraich	47
8.3	The worked pumice by <i>C R Wickham-Jones</i>	48
8.4	Summary	48
9	Other artefacts by <i>C R Wickham-Jones and K Hardy</i>	50
10	Environmental interpretation by <i>M Cressey and K J Edwards</i>	51
10.1	Geology and soils by <i>M Cressey</i>	51
10.1.1	Soil Pit 1	51
10.1.2	Soil Pit 2	52
10.1.3	Soil Pit 3	53
10.1.4	Discussion	53
10.2	Geomorphology and palaeo-environment by <i>M Cressey</i>	53
10.2.1	Background	53
10.2.2	Results	53
10.2.3	Discussion	55
10.3	Macroscopic organic material by <i>M Cressey</i>	55
10.4	On-site pollen by <i>K J Edwards</i>	55
10.4.1	Pollen samples	55
10.4.2	Description	55
10.4.3	Methods and presentation of results	55
10.4.4	Discussion	57
10.5	General environmental interpretation by <i>K J Edwards</i>	57
11	Radiocarbon determinations by <i>C R Wickham-Jones and K Hardy</i>	58
12	Interpretation and discussion by <i>C R Wickham-Jones and K Hardy</i>	59
12.1	Site location	59
12.2	Human activity	59
12.3	The nature of the Mesolithic and the role of the site	61
12.4	The wider Mesolithic world	61
13	The future of the site by <i>C R Wickham-Jones and K Hardy</i>	63
14	Acknowledgements	64

16	Glossary and notes to the lithic catalogue	69
17	List of contexts	72

18 Catalogue of lithic material	74
19 Detailed results of the microwear analysis of lithic artefacts by <i>K Hardy</i>	75

List of illustrations

1	Camas Daraich: location map	2
2	Camas Daraich: general plan of the croft showing main areas of lithic collection	3
3	Camas Daraich: photograph of the croft from the SE, showing the bulldozed track and trench 1. The ‘cliffs’ to either side of the raised beach may be seen in the bottom left and in the background lies the peat-filled embayment with the sea in the distance.	4
4	Camas Daraich: topographical location map showing the raised beaches, cliff lines and the peat-filled basin.	6
5	Camas Daraich: general photograph of the site from the SE, showing the grass-covered raised beach with the track running across it and excavation in progress on trench 1	7
6	Camas Daraich: view across and up the raised beach from the N	7
7	Camas Daraich: view of the surface of the raised beach at its crest above the site, from the S	8
8	Camas Daraich: borrow pit cut into the raised beach above the site	8
9	Camas Daraich: division of the track into sections for lithic collection.	9
10	Camas Daraich: contour survey with position of main trench, test pits and soil pits	11
11	Camas Daraich: view of the track from the N showing the location of trench 1.	12
12	Camas Daraich: overall plan of trench 1.	12
13	Camas Daraich: trench 1, squares B1 & C1	13
14	Camas Daraich: trench1, squares B1 & C1 during excavation from the E.	13
15	Camas Daraich: trench 1, square B1 hearth area, at abandonment of excavation, from the E	14
16	Camas Daraich: trench 1, squares B1 & C1: N, W and S section drawings at end of excavation	15
17	Camas Daraich: trench 1, square B3.	16
18	Camas Daraich: trench 1, square B3 during excavation, from the S	16
19	Camas Daraich: trench 1, square B3 at end of excavation, after removal of context 08, from the S	17
20	Camas Daraich: trench 1, squares B1 & C1 during excavation of the drain (012), from the S	17
21	Camas Daraich: Test Pit Z.	17
22	Camas Daraich: Test Pit Y.	18
23	Camas Daraich: Test Pit X.	18
24	Camas Daraich: general view of the croft from the S across the other areas of lithic collection (see Illus 2)	18
25	Camas Daraich: the lithic assemblage, proportional use of the main raw materials.	20
26	Camas Daraich: view of Bloodstone Hill, Rùm	20
27	Camas Daraich: view of the Staffin Bay area.	21
28	Camas Daraich: marine-transported stone, Applecross Bay	22
29	Camas Daraich: the lithic assemblage, breakdown by type of the different assemblages of a : chalcedonic silica; b : Rùm bloodstone; c : baked mudstone; d : quartz.	23
30	Camas Daraich: the lithic assemblage, cores (NB: numbers refer to the catalogue numbers in Section 18). Cat. nos 1853, 476, 730 – platform cores all of chalcedonic silica; cat. nos 1553, 1839 – bipolar cores of bloodstone; cat. no. 681 – bipolar core of quartz.	25

31	Camas Daraich: the lithic assemblage, width of unretouched blades	27
32	The lithic assemblage: microliths (NB: numbers refer to the catalogue numbers). Backed bladelets: 801, 807, 1534, 1818, 1845, 1846, Rods: 779, 802, 795, 1783, 1820; Crescents: 1767, 72, 1805, 1843; Fine points: 57, 1808, 79, 803; Chalcedonic silica: 57, 72, 79, 91, 795, 803, 807, 1534, 1783, 1808, 1820, 1846; Bloodstone: 779, 801, 802, 818, 845, 1767, 1805, 1843	28
33	The lithic assemblage: obliquely blunted blades and microburins [1857, 1858, 1778] (NB: numbers refer to the catalogue numbers). Chalcedonic silica: 1778, 1849, 1855; Bloodstone: 784, 1837, 1838, 1857, 1858.	30
34	The lithic assemblage: scrapers (NB: numbers refer to the catalogue numbers). Chalcedonic silica: 151, 685, 781, 1222, 1483, 1484, 1851; Bloodstone: 1660; Baked mudstone: 783; Quartz: 347	32
35	The lithic assemblage: edge-retouched pieces (NB: numbers refer to the catalogue numbers). Chalcedonic silica: 686, 1672; Bloodstone: 66, 1811; Baked mudstone: 1425; Quartz: 684	33
36	The lithic assemblage: awls; barbed and tanged point (NB: numbers refer to the catalogue numbers). Chalcedonic silica: 348, 1067 (the bifacial point); Bloodstone: 787, 1395	33
37	The lithic assemblage: sample of artefacts with microwear (NB: numbers refer to the catalogue numbers). Bloodstone flake: 1503; Chalcedonic silica, microlith – fine point: 1840; Chalcedonic silica, blade (one half of a refit): 1852; Quartz blade: 1817; Bloodstone flake: 822	40
38	Camas Daraich: the bevelled pebble, B111.	46
39	Camas Daraich: graph to illustrate the relationship of the Camas Daraich pumice to other pumice deposits in Scotland and volcanic products from the Katla volcanic system	48
40	Camas Daraich: the worked pumice, B102.	49
41	Camas Daraich: Soil Pit 1	51
42	Camas Daraich: Soil Pit 2	52
43	Camas Daraich: Soil Pit 3	53
44	Camas Daraich: general view to the NW, showing the peat-filled basin and the general area of Selby's core	54
45	Camas Daraich: analysis of the on-site pollen sample	56
46	Camas Daraich: Thanks to Steven, Martin and George!	64

List of tables

1	Camas Daraich: the lithic assemblage, breakdown by type.	19
2	Camas Daraich: the lithic assemblage, breakdown by location.	19
3	Camas Daraich: the lithic assemblage, breakdown of the retouched pieces by classification	19
4	Camas Daraich: the lithic assemblage, breakdown by raw material	20
5	Camas Daraich: the lithic assemblage, cortex recorded on relevant pieces of the different materials	24
6	Camas Daraich: the lithic assemblage, cores by type and material	24
7	Camas Daraich: the lithic assemblage, percentage of whole regular flakes with bipolar characteristics, by material	25
8	Camas Daraich: the lithic assemblage, proportions of blades to regular flakes, by material	26
9	Camas Daraich: the lithic assemblage, modified tools with microlithic retouch	26
10	Camas Daraich: lamellar index as worked out on platform-struck pieces	27
11	Camas Daraich: the lithic assemblage, modification with microlithic retouch, by material and type.	29
12	Camas Daraich: the lithic assemblage, backed bladelets, blanks	29
13	Camas Daraich: the lithic assemblage, rods, blanks	29
14	Camas Daraich: the lithic assemblage, raw materials of the larger retouched pieces.	31
15	Camas Daraich: the lithic assemblage, breakdown of the assemblage by location and type.	34
16	Camas Daraich: the lithic assemblage, site CD1, lithics from secure Mesolithic contexts	35
17	Camas Daraich: the lithic assemblage, composition of material in contexts 08, 10 and 13 by square.	35
18	Camas Daraich: microwear analysis, composition of the sample studied.	39
19	Camas Daraich: microwear analysis, raw materials	39
20	Camas Daraich: microwear analysis, locations and contexts of studied artefacts	39
21	Camas Daraich: microwear analysis, raw material and use	40
22	Camas Daraich: artefacts with microwear, the largest dimension	41
23	Camas Daraich: artefacts with microwear, thickness	41
24	Camas Daraich: artefacts with microwear, edge angle	41
25	Camas Daraich: microwear on unretouched blades and flakes	41
26	Camas Daraich: microwear on retouched artefacts	42
27	Camas Daraich: microwear analysis: location of points, tips, corners	43
28	Camas Daraich: microwear analysis: location of used artefacts in context 8	44
29	Camas Daraich: catalogue of coarse stone	46
30	Camas Daraich: the major element composition of the brown worked pumice (total iron is expressed as 'FeO')	47
31	Camas Daraich: catalogue of finds of recent non-lithic material.	50
32	Camas Daraich: radiocarbon dates from the Point of Sleat basin (after Selby 1997)	54
33	Camas Daraich: list of species recovered from the 4 mm flotation fraction	54

34	Camas Daraich: radiocarbon determinations, calibrations carried out by the lab using OxCal 3.5 (Bronk Ramsey 2000) and the 1998 calibration curve (Stuiver <i>et al</i> 1998)	58
35	Camas Daraich: comparison of raw materials between the securely Mesolithic and other contexts	60
36	Camas Daraich: radiocarbon determinations from the Small Isles, Skye and the Inner Sound relating to the 7th and 8th millennia BC	62
